

# SEO GROWTH REPORT FOR

In the last three months, Dr. Pankti's Revive Clinic recorded **316 clicks** and **18.3K impressions** on Google Search Console, with an **average CTR of 1.7%** and an **average position of 33.6**. The top-performing search queries include **"dr pankti revive clinic"** with 294 impressions and 24 clicks, followed by **"trichocare"** with 98 impressions and 18 clicks. Overall, the data shows steady growth in website visibility, with most traffic driven by branded clinic-related searches.

In the last 90 days, Dr. Pankti's Revive recorded **595 active users** and **593 new users**, with an **average engagement time of 48 seconds**. The majority of traffic came from **Organic Search (454 sessions)**, followed by **Direct (310 sessions)** and **Organic Social (63 sessions)**. A small share was contributed by **Referral (20 sessions)**. This indicates that most users are discovering the clinic organically through search, while direct visits also remain a strong channel.

Keyword rankings show strong visibility, with **20+ keywords in the top 10 positions**, including “*dr pankti revive clinic*,” “*dr pankti revive borivali*,” and “*peptide therapy mumbai*.” This indicates steady organic growth and improving brand recognition in local search.
